

Approximation and Computation: A Festschrift in Honor of Walter Gautschi

Filesize: 6.84 MB

Reviews

An exceptional pdf along with the typeface applied was intriguing to read. It can be rally intriguing throgh studying time period. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Prof. Uriel Watsica III)

APPROXIMATION AND COMPUTATION: A FESTSCHRIFT IN HONOR OF WALTER GAUTSCHI

Book Condition: New. Publisher/Verlag: Springer, Berlin | Proceedings of the Purdue Conference, December 2-5, 1993 | Proceedings of the Purdue Conference, December 2-5, 1993 | R. V. M. Zahar The sixty-fifth birthday of Walter Gautschi provided an opportune moment for an international symposium in his honor, to recognize his many contributions to mathematics and computer sciences. Conceived by John Rice and sponsored by Purdue University, the conference took place in West Lafayette from December 2 to 5, 1993, and was organized around the four main themes representing Professor Gautschi's principal research interests: Approximation, Orthogonal Polynomials, Quadrature and Special Functions. Thirty-eight speakers - colleagues, co-authors, research collaborators or doctoral students of Professor Gautschi - were invited to present articles at the conference, their lectures providing an approximately equal representation of the four disciplines. Five invited speakers, Germund Dahlquist, Philip Davis, Luigi Gatteschi, Werner Rheinboldt and Stephan Ruscheweyh, were unable to present their talks because of illness or other commitments, although Professors Dahlquist, Gatteschi and Ruscheweyh subsequently contributed articles to these proceedings. Thus, the final program contained thirty-three technical lectures, ten of which were plenary sessions. Approximately eighty scientists attended the conference, and for some sessions - in particular, Walter's presentation of his entertaining and informative Reflections and Recollections - that number was complemented by many visitors and friends, as well as the family of the honoree. A surprise visit by Paul Erdos provided one of the highlights of the conference week. The ambiance at the symposium was extremely collegial, due no doubt to the common academic interests and the personal friendships shared by the participants. | Gauss Elimination by Segments and Multivariate Polynomial Interpolation.- Quantization of the Gamma Function.- Vector Orthogonal Polynomials of Dimension d .- An Extension of a Result of Rivlin on Walsh Equiconvergence (Faber Nodes).-...
