GEOGRAPHICAL AND PHYSIOLOGICAL. To my surprise, the information concerning Zanzibar and the N. E. coast of Africa scarcely contains meagre phrases destitute of precision. --(Col. Sykes Journal, K. G. S., vol. xxiii. 1853.) He forgets that entering from the coast is like jumping from the street into the window.--(E. F. B.) Section 1. Africa, East and West-- , Zanzibar explained-- Menouthias--Position and Formation--The East African Current-- Navigation--Aspect of the Island. It is an old remark that Africa, the continent which became an island by the union of the twin seas in the year of grace 1869, despite her exuberant wealth and her wonderful powers of reproduction, is badly made--a trunk without limbs, a monotonous mass of painful symmetry, wanting opposition and contrast, like the uniform dark complexion of her sons and of her fauna--a solid body, like her own cocoa-nut, hard to penetrate from without, and soft within; an individual of the earth, self-isolated by its savagery from the rest of the world. This is especially true of intertropical Africa. The western coast was, until the last four centuries, cut off from intercourse with mankind by the storm-lashed waters of the northern approach; and to the present day the unbroken seaboard, so scanty in good harbours, and the dangerous bars and bores which defend the deadly river mouths, render it the least progressive part of the old world. The more fortunate north-eastern and subtropical shores were enabled by their vast crevasse, the...
