

Computer network technology training (colleges and universities in the 21st century computer technology planning materials)

Filesize: 1.2 MB

Reviews

This sort of publication is everything and made me seeking forward and much more. Better then never, though i am quite late in start reading this one. I am easily could possibly get a delight of reading through a created pdf.

(Quinton Balistreri)

COMPUTER NETWORK TECHNOLOGY TRAINING (COLLEGES AND UNIVERSITIES IN THE 21ST CENTURY COMPUTER TECHNOLOGY PLANNING MATERIALS)

To get **Computer network technology training (colleges and universities in the 21st century computer technology planning materials)** eBook, you should refer to the link below and download the file or have access to additional information which are related to **COMPUTER NETWORK TECHNOLOGY TRAINING (COLLEGES AND UNIVERSITIES IN THE 21ST CENTURY COMPUTER TECHNOLOGY PLANNING MATERIALS)** book.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 297 Publisher: Tsinghua University. Pub. Date :2011-04-01 version 1. Zhanggao Yu editor of computer network technology training for the principles of computer networks. computer network management and computer network simulation technology. important points. well 87 design training. covering the cabling infrastructure. the three operating system installation and configuration. build campus networks. remote network construction. advanced network management based on OPNET network simulation technology. Training design has a strong operational and targeted. less demanding on the experimental environment. Through training. to deepen the understanding of theoretical knowledge. to master the methods of computer network technology and application skills. guide students to apply their knowledge purposes. Computer network technology training as a professional science and engineering institutions of higher learning computer network supporting experiments and practical training course materials. training coverage and the difficulty to achieve and exceed the needs of network engineers to master the standards. so it is suitable for network training with the book. Contents: Cabling Basics Training an RJ45 network line with crystal head of the production installation and training two card set training three pairs directly connected to the network operating system articles practical training four Windows Server 2003 operating system installation training five TCP / IP protocol configuration training six Windows Server 2003 workstation configuration training seven training eight Novell Remote Desktop Connection server and client installation and configuration of Novell server remote management training nine ten Novell client software training management training eleven virtual set machine VMware workstation installed in VMware workstation training twelve install Red Hat Linux training thirteen Linux user management system to build training campus training fourteen articles accessed through the Console port equipment training fifteen Cisco IOS software....
