

## Thyristor Control of Electric Drives

Filesize: 3.81 MB

### ***Reviews***

*I just started off reading this article ebook. It is actually written in basic words and not confusing. I am just very happy to let you know that this is the best ebook I actually have read through inside my individual daily life and can be the finest ebook for possibly.*

## THYRISTOR CONTROL OF ELECTRIC DRIVES

McGraw Hill Education, 1988. Softcover. Book Condition: New. First edition. The book provides tools for the analysis of electrical machines fed on thyristor converters. A detailed exposition of dc and ac drives is given for making the right choice of drive for a required job to give the desired performances. The aspect of phase controlled converters, inverters, frequency conversion using these converters and the method of improving the line conditions are discussed in detail. Mathematical modelling of both dc and ac motors is given. The aspects of performance of induction and synchronous motors of variable frequency supplies are provided. Also discussed are the features of dc motors operating on converters with respect to commutation, speed range, etc. Methods of improvement in the performance are suggested. A short description of micro-processors in the control of thyristorised ac and dc drives is also included. The approach adopted is simple. Feature of the converters have been dealt with without any mathematical derivation. The matrix equations of the motors are derived giving due consideration to the physical behaviour of the motor. The features of variable frequency operation with constant flux are brought out. The book would serve as a useful text for undergraduate courses in electric drives. It would also be a valuable reference for practising engineers involved with static power converters and drives. Table of contents 1. Thyristor Power Converters 2. Mathematical Modelling of Electrical Machines 3. Induction Motor Control 4. Synchronous Motor Control 5. DC Motor Control 6. Microprocessors in the Control of Electrical Drives Printed Pages: 480.
