Leon Chameleon Pi and the Case of the Kidnapped Mouse

By Janet Hurst-Nicholson

Createspace, United States, 2015. Paperback. Book Condition: New. Barbara McGuire (illustrator). 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.A humorous, animal detective story for 7-12 year-olds. When Mr Woodland Mouse mysteriously disappears, Constable Mole is quick to enlist the help of Leon Chameleon, Private Investigator, whose expertise enabled the Pigeon Valley Police to solve the case of the missing canary eggs. After organising a search, Leon realises that there is only one creature in the valley who can spring the captured mouse from his prison. But just when he thinks Mr Woodland Mouse is safely on his way home, the plan goes horribly wrong. All the animal details of food, habits, and lifestyle are true to nature (apart from Constable Mole's sunglasses!) and the animals solve the crimes using their own natural abilities. Children will absorb much knowledge of the small creatures of Africa without being aware of it. A section of interesting facts has been added to this second detective story in the Leon Chameleon PI series. It provides valuable and little-known information on chameleons, moles and other creatures featured in the story.
