Synthesis, Characterization and Applications of Nano-CDHA

By Baby Gayathri, S. / Kamaraj, P.

Book Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Reverse micellar route methodology was adopted for the synthesis of nano-calcium deficient Hydroxyapatite(nano-CDHA). The synthesized compound was characterized for the presence of nano-CDHA using X-ray Diffraction, Fourier Transform Infra-Red Spectroscopy, Energy Dispersive X-ray Spectroscopy and Transmission Electron Microscope. Application of nano-CDHA for bone implants was evaluated using MTT assay. The drug release of cefalexin when loaded with the synthesized nano-CDHA was studied and the drug release kinetics at the physiological pH was found. The catalytic activity of nano-CDHA was proved from the gasoline synthesis from ethanol and Michael s addition reaction of acetophenone and thiophenol over nano-CDHA. The gas sensing property of nano-CDHA was also evaluated and the kinetic model for gas detecting system was obtained. | Format: Paperback | Language/Sprache: english | 68 pp.

Reviews

A fresh e book with an all new viewpoint. It can be rally exciting through studying period of time. You will like the way the writer write this publication.

-- **Tania Cormier**

An extremely wonderful pdf with perfect and lucid information. Better then never, though i am quite late in start reading this one. I realized this publication from my dad and i recommended this publication to understand.
