LAP Lambert Academic Publishing Dez 2015, 2015. Taschenbuch. Book Condition: Neu. 220x150x6 mm. Neuware - In recent year technology development in health care services has massively adopted electronic smart card authentication in health care and medical treatment services in which user and administrator agree on a robust security techniques. Today, European countries are already using e-Health card services for handling the records of patients which include previous treatments and prescriptions records. Technology is developed that the system is made secure so that unauthorized access may be avoided and the data stays secure. In this survey report, we categorized sample in three categories viz. students, doctors and management staff of hostel and from the survey we are expecting positive response to recommendation of health card in hostel. The survey is carried out using questionnaire, the data obtained is analyzed using charts and resulting students teachers as well as management staff are aware that health card is important in developing and maintaining good health. The solution for this problem is to start using health cards for students in hostel. 92 pp. Englisch.
