Digital Image Fundamentals in MATLAB

Filesize: 5.26 MB

Reviews

This book is great. I have go through and so i am confident that i will going to read through once again again in the future. I am just easily can get a satisfaction of looking at a written book. (Miss Vernie Schimmel)

DIGITAL IMAGE FUNDAMENTALS IN MATLAB

To get **Digital Image Fundamentals in MATLAB** PDF, remember to refer to the button below and save the document or get access to other information which might be in conjuction with DIGITAL IMAGE FUNDAMENTALS IN MATLAB book.

AUTHORHOUSE, United States, 2005. Paperback. Book Condition: New. 278 x 208 mm. Language: English Brand New Book ***** Print on Demand *****. The book is mainly concerned with the fundamental Digital Image Processing (DIP) problems much found in the DIP textbooks. Emphasis has been given to the subjective implementation on the DIP problems while working in MATLAB. Starting from simplistic example without undue neglect of mathematical intricacies and making the reader able to tackle a practical DIP problem are the salient features of the text. However, the notable features of the text are as follows: A step by step guide for the Digital Image Processing undergraduate and graduate students while using MATLAB as their working platform Introduces modular image examples so that the reader can grasp the concept quickly and manipulate the practical images very easily Image processing engineers, teachers, researchers, and scientists willing to work in MATLAB may benefit from the text Made-easy approach and clear presentation style comfort the average reader to go through the Digital Image Processing know-how immediately Minute implementational descriptions are taken care of considering adequate image examples Suited to individual or classroom practice Ten chapters in the text narrate the following: 1. Introduction to MATLAB 2. Digital Image Fundamentals 3. Digital Images In Spatial Domain 4. Digital Image Transforms 5. Digital Image Filtering 6. Digital Image Properties and Edges 7. Image Degradation and Restoration 8. Morphological Image Processing 9. Miscellaneous Image Processing 10. Programming Issues.
